

PIC/D-124-60
26 October 1960

MEMORANDUM FOR: Deputy Director (Plans)

SUBJECT: Evaluation of In-Flight Film Processor

1. In accordance with your desire, as expressed to us by Major Watson, we have made a preliminary analysis of the In-Flight Film Processor manufactured [redacted]. The results of this test are explained in the attached report.

STAT

2. You will note that the exercise revealed that more work is required [redacted] on both the chemicals and the web material before the processor could be expected to operate reliably.

STAT

3. The continued opportunity to support DPD in such problems as this is providing the technical personnel of PIC with invaluable experience and insight into probable future equipment and techniques.

[redacted]
ARTHUR C. LUNDAHL
Director
Photographic Intelligence Center
